

Our Statement on Sustainability

"We aim to create lasting stakeholder value through responsible growth and deep commitment to the well-being of future generations. We cherish the earth's natural resources and hold sustainability and environmental protection as our key priorities."

As our company fulfills its responsibilities to our customers, shareholders, employees and the public, six commitments provide a framework for focusing our energies toward the greatest good:

- Product Stewardship
- Green Building Development
- Social Accountability
- Environmental Preservation
- Regulatory Compliance
- Economic Responsibility

Our Products Reflect Stewardship

MEMBER

BIFMA
 INTERNATIONAL

We base our business on producing environmentally friendly goods that enhance the lives of our customers and bring value to the markets we serve. Our emphasis on low-emitting products protects indoor air quality through the achievement of the Business and Institutional Furniture Manufacturer's Association (BIFMA) Furniture Emissions Standard (FES). Our products earn the Indoor Advantage™ and SCS Sustainable Choice™ marks from Scientific Certification Systems (SCS).

By giving customers the option of Forest Stewardship Council (FSC) certified wood, we offer products that are not only economically viable, but are environmentally responsible and socially beneficial. Likewise, we are exploring new ways to incorporate rapidly renewable resources such as bamboo, cork and other plants with short growing cycles.

National casegoods include a recycled material content of at least 82 percent. A wide range of 100 percent recycled polyester choices and rapidly renewable cotton choices are available for upholstered seating products while our packaging contains an average of 30 percent recycled content.

What's more, our manufacturing facilities are registered to the ISO 14001 standard. This management tool enables us to identify and control the environmental impact of our operations, continually improve our company's environmental performance and systematically set environmental objectives and demonstrate their achievement.

Growing With Green Buildings

National facilities testify to our belief in sustainable building practices.

 Pursuing guidelines set by the U.S. Green Building Council (USGBC), we prioritize building practices that support the LEED® (Leadership in Energy and Environmental Design) Green Building Rating System. Benefits to LEED certification include reductions in energy, water, and material use, leading to a reduced environmental impact making our green buildings healthier and more comfortable.

LEED® Registered Projects:

- Research and Development Rooms/Jasper, IN - LEED Certified
- Corporate Showroom/Jasper, IN - LEED Gold
- Showroom/Chicago, IL - LEED Silver
- Showroom/New York, NY - LEED Certified
- Showroom/Orange County, CA - LEED Certification Pending
